COULD NOT STOP THE HEADACHES

Until She Tried "Fruit-a-lives" (or Fruit Liver Tablets)

112 Coburn St., St. John.

"I feel I must tell you of the great benefit I have received from your wonderful medicine, 'Fruit-a-lives'."

ONLY 20 YEARS AGO

But What a Difference it Has Made in People and Things

Nobody swatted the fly. Nobody had appendicitis. Nobody wore white shoes.

Cream was 5 cents a pint. Most young men had "livery bills."

Cantaloupes were muskmelons. You never heard of a "tin lizzie."

Doctors wanted to see your tongue. Milkshake was a favorite drink. Advertisers did not tell the truth.

Nobody cared for the price of gasoline. Farmers came to town after their mail.

The hired girl drew \$1.50 a week. The butcher "threw in" a chunk of liver.

Folks said pneumatic tires were a joke. Nobody "listened in" on the telephone.

There were no sane Fourths, nor electric meters. Strawstacks were burned instead of baled.

Jules Verne was the only convert to the submarine.

You stuck tubes in your ears to hear a phonograph and it cost a dime.

Varying Tastes in Humor.

There is no accounting for taste in humor. It varies from generation to generation. It varies even in a single individual. Where are the jokes of his youth? To think that he once laughed at them, now almost makes him writhe. But then, there are his children. He has the consolation of seeing them explode at the old jests which have come to seem to him utterly feeble and empty. He discovers that to his innocent prattlers, he himself appears a mighty humorist in his "table talk." It is a quiet lesson to him in the way times change, and we change with them. The child is not the father of the man, in the matter of humorous appreciation. At least, it is a reflection on the wit, for not putting away childish things.

On account of the prevailing influenza epidemic it was thought best to close the churches and library and not open the schools this week.
